

Employer Engagement

We need your help

Coronavirus has, and continues to have an impact on businesses and as a result this is having an impact on the vital real world work related activities and experiences we can offer our students. We need your help! We are looking for local employers, employees, and workplaces to help inspire our students and provide them with meaningful VIRTUAL work related encounters.

Employer engagement can be carried out in different ways:

Virtual Talks/Q&A Sessions – Can you share your career story with our students and let them ask you questions about it?

Virtual Workshops – Can you provide our students with CV writing advice, or how to prepare for a job interview, or provide a mock interview? Can you share what employability skills employers are looking for?

Virtual Work Experience Activities – can you set our students a task or project over a period of time and check in with them on how they doing along the way, and then provide feedback on their finished project?

Virtual Workplace visits – can you give our students the chance to see a working environment – can you send us a video tour of your work place and work force in action and then join us for a virtual talk?

Enterprise – Can you support our Enterprise groups by selling some of their products in your business?

This is an exciting opportunity for all stakeholders, staff, students, families, local organisations and members of the community to get involved in the Woodland Mead Careers programme.

Your input could be incredibly valuable in giving young people a chance to gain a detailed insight in to the world of work and your organisation could gain an increased profile within the community, and a possible route to sourcing the next generation of employees.

If you can help with an employer engagement or for further information, contact careers@woodlandsmeed.co.uk
