CAS Burgess Hill SEND Community

Our subject leader for Computing and Media runs a Computing at School Community aimed at SEND schools in our region but which is open to all computing teachers. We hold termly events looking at different aspects of teaching computing with a SEND focus. This keeps us in touch with colleagues in other schools locally and around the country, enabling us to share ideas and best practice.

Computing at School

CAS Burgess Hill SEND (SEND) edit
Opened: 12 June 2019
