

The Time for Transition Edition!

It may feel like we have only just come back from the summer holidays.... but for some students, it's time to start thinking about the next step in the journey.

Year 11 students are currently having Personal Guidance Interviews with Kate from Elev8 Careers, with year 13 students to follow in the Spring term.

This edition takes a look at the pathways available and a closer look at Supported Internships.

transition [tran-zish-uhn, -sish-] [SHOW IPA](#)  

See synonyms for: [transition](#) / [transitions](#) on [Thesaurus.com](#)

noun

1. movement, passage, or change from one position, state, stage, subject, concept, etc., to another; change:

The transition from adolescence to adulthood can be difficult.

Lets take a closer look at Supported Internships....

Supported Internships

A Supported Internship is an unpaid work-based study programme that usually lasts for a year. You will spend the majority of your time in the workplace, developing your skills for employment.

It is a first step from education into the workplace while gaining the skills needed to get a paid job.

To apply for a Supported Internship you need to be:

- *Aged 16—24 years old*
- *Hold an Education, Health and Care Plan (EHCP)*

A Supported Internship includes:

- *An unpaid work placement of at least 6 months*
- *Support from a local Job Coach*
- *A study programme, including studying English and maths to an appropriate level*

What happens afterwards?

The aim of a Supported Internship is to prepare you for working in a paid job. You could get a job at the same place you did your Supported Internship or you could look for a job with a different employer.

Are you ready to try something **different?**

Are you ready to commit to the **world of work?**

Do you want a **supported pathway to **paid employment**?**
