

EasitNETWORK Communication – 1st July 2024

Make your commute easier, greener, and healthier.

The **easit** scheme encourages commuters to use sustainable ways to travel – reducing congestion and pollution in and around our county and beyond. You may already be familiar with the scheme, which historically has allowed staff to take advantage of discounts on public transport in certain areas of West Sussex.

However, we're pleased to announce that WSCC now funds full **easitNETWORK** membership for WSCC staff, offering a range of ways to save money on your travel in any of the participating regions, predominantly across the south of the UK, in return for the purchase of an **easitCARD** (£5.90 annually).

Participating regions include Brighton & Hove, East Surrey, East Sussex, Guildford, Hampshire, and Portsmouth, among others, as well as West Sussex. Full details of all initiatives and regions can be found by registering online at the [easitNETWORK website](#).

There are numerous savings available, for example:

- **Trains** – 15% discount on Southern and South Western Railway, including peak time travel and season tickets
- **Buses** – 10% off Stagecoach MegaRider tickets and access to the Metrobus Gatwick travel card
- **Cycling** – discounts on Halfords in-store purchases, trial hire and loan bikes, discounts with EcoMove Smart Electric Mopeds and E-bikes
- **Car** – free membership of Co-wheels Car Club, savings with Enterprise Car Club, car sharing scheme with **easitSHARE**, savings on electric vehicle chargers and service contracts with Chargebase.

Participation in the **easitDISCOUNTS** will require an **easitCARD** which costs £5.90 per annum and can be purchased online after registering. Once registered, click on the Dashboard button at the top of the page, click on Your Initiatives / Discounts, select the discount you are interested in and follow the instructions!

See the **easit** scheme [Frequently Asked Questions](#) for more information.

A dedicated Customer Services team is available via email at info@easit.org.uk

Did you know that replacing car journeys with public transport can reduce your carbon emissions by 39% if using the bus and 79% if using the train? Source: [Energy Saving Trust](#).
